

Cascades Rules

For

DUMPSTER and RECYCLE BIN USE

- Since this facility is a common asset for the use and convenience of all Cascades owners, renters, and guests PLEASE be considerate of your neighbors and help to maintain its appearance and sanitary condition.
- DO NOT leave anything on the ground outside of either the dumpsters or recycle bins. Waste Management will NOT pick up trash from the ground.
- Boxes must be broken down before depositing them in the recycle bin or the dumpster if all recycle bins are full.
- Do NOT place recycle items in plastic bags. Waste Management will include them with the trash instead of with the recycling.
- Do NOT discard large items such as furniture, appliances, or anything else that uses a large amount of space, or items that will not fit completely in the dumpster or recycle bins. Call our property manager, Sandcastle Property Management, at 239-596-7200 to arrange for a special pick-up for those items.
- Do NOT leave any doors or lids open even a little bit on either the dumpster or recycle bins. This is to avoid problems with pests. If there is not enough room in the receptacles to close the lid completely, please try another Cascades dumpster/recycle bin or take the trash back home until the receptacles are emptied.
- NOTE: Owners are responsible for advising their renters and guests of these rules. Please supply a copy of the rules to your renters with their rental information package and insure that a copy is available in a conspicuous place for them in your condo.
- PLEASE REPORT ANY PROBLEMS WITH OUR DUMPSTERS OR RECYCLE BINS TO OUR PROPERTY MANAGEMENT COMPANY, SANDCASTLE PROPERTY MANAGEMENT, AT 239-596-7200.
