

Magnolia Falls Email Update May 6, 2018

My email contains several updates of interest to Magnolia Falls owners:

- The Master Association well located at the entrance to Magnolia Falls, Amelia Lakes and Magnolia Cove has been damaged and is 'out of commission'. This well irrigates areas along our back lot line on Hidden Lake Ct, the area around our entrance flag pole and several reserve areas. The well pump needs to be replaced. Miller Well will be working next week to replace the damaged parts and we hope to have it operational by end of week.
- Our contract with FirstService Residential Management has been signed. Mike Morrow is our new property manager and will be on-site on May 7th. FirstService will be sending several letters to Magnolia Falls owners introducing themselves and their services.
- The Magnolia Falls board meeting listed on the calendar for May 15th is cancelled.
