

This is an exciting time in our pool renovation!!

The roof is being completed as is the waterproofing of the water fall.

All the tile work is being completed.

The fence for the filter yard is being installed.

The pool shell is being prepped for the pebbling layer to be applied.

On Saturday 09/21/2019 at 2:00 A.M.:

The work to apply the pebbling layer will begin.

It will be lights and action!!

Approximately 15 hours and 50 workers are needed to complete this job.

If interested, watch from the clubhouse or the deck.

The worksite around the pool is OFF LIMITS!

On Sunday 09/22/2019:

The filling of the pool is planned to begin.

Once the pool is filled and the pumps have been turned on, the pool will be fully balanced. Inspections can then take place.

The lift will be one of the final items to be installed.
