

The pool is looking beautiful and so inviting.  
But the work is not complete.  
The pool and the surroundings are still a worksite.

You can follow the progress from the clubhouse or the deck.  
The furniture has arrived but cannot be set in place until inspections are completed.  
Even though the pool is filled, it is not ready to be reopened for swimming.

All of the equipment is being tested and adjusted as needed.  
The pool water is being balanced so that it is safe for swimming.

The inspections will hopefully be completed this week.  
The re-opening is projected within 5 – 10 days.

We realize that everyone is anxious for this project to be completed.  
We will send a blast as soon as we are notified that we can re-open.

Your patience is appreciated!  
Regards,  
Janice Schienke
