

ANNOUNCEMENT

Carol McCabe was a long time resident of Magnolia Cove passed away on the early morning of Monday, October 11, 2021.

Carol died peacefully in her sleep and was declared so at 3:14 this morning at her home about a week after leaving the hospital. Carol suffered COPD for years and for the past 4 months was in and out of the hospital until the doctors declared that her lungs were at the point where they could do no more for her and so she wanted to be home.

Carol and I would have been married for 67 years at our next anniversary and she meant everything to our sons and of course myself.

At Carols' request, we don't anticipate a large or maybe no formal funeral due to the virus and its affect on crowds.

We will request that any flowers or good wishes be sent Avow and your and her favorite charity which includes many well known local food shelves and such.

She will be missed by all who knew Carol and us , her sons and myself.

We wish you all well.

Ray , John and Kevin. (John lost his wife Pattie of 39 years to Covit several months ago)
