

A safety reminder

We have heavy trucks in and out of our community for the next two weeks. Please drive, walk, and bike safely.

I received this message today. The operation of motor vehicles in our community is the same on public roads.

When I was driving through the Water Crest heading home 2 young boys were driving a large moped very unstable and the youngest sitting in the back holding items ..maybe for the pool. They were very shaky, and young, and with the trucks, I feel concerned for their safety.
